

AYESHA SIKANDER

sikanderayesha@46gmail.com

Dynamic and ambitious CS graduate, excited to apply my programming proficiency and strong communication skills as a React Web App Developer. Passionate about crafting web solutions, staying updated with the latest tech trends, and embracing challenges with enthusiasm.

EDUCATION

BS COMPUTER SCIENCE

- WOMEN UNIVERSITY MULTAN (2019 – 2023)

RELEVANT COURSEWORK

- Programming Fundamentals

EXPERIENCE

IT-HUB: NEWS WEB APP

Designed and Developed a dynamic Web App utilizing react.js for the frontend and Strapi as the headless CMS for the backend.

Implemented responsive user interfaces using bootstrap framework to ensure optimal viewing across various devices.

Utilized modern web development best practices, including component-based architecture and state management.

Collaborated in a team to ensure successful project delivery within the designated timeline.

Demonstrated proficiency in frontend development, API integration, and content management systems.

CYBER SECURITY TRAINING

Three-Month Training Program by NAVTTC, Pakistan

Successfully completed an intensive three-month training program focused on Cyber Security.

Developed a strong understanding of fundamental concepts in network security, ethical hacking, and vulnerability assessment.

Acquired hands-on experience with tools such as Nmap, Wireshark, Burp Suite, and Metasploit and more.

Demonstrated practical skills in identifying and mitigating security threats.

TECHNICAL PROFICIENCY

Skills:

React Web App Development

Front-End Web Development

Responsive Web Design

Languages: HTML | CSS | JavaScript

Bootstrap | Strapi CMS

Cyber Security Analysis

Tools:

Visual Studio | Canva

For Penetration Testing:

Nmap | Metasploit | Shodan | Wireshark

Operating System:

Windows | Linux
